ABOUT ME

An experienced software engineer passionate about clean code, I have a rich background in developing and maintaining enterprise-level applications. I specialize in utilizing modern frameworks like **ReactJS & NextJS**. Recently, I've been spearheading modernizing our tech stack while also mentoring junior developers.

EXPERIENCE

SOFTWARE ENGINEER
JPMORGAN CHASE 2021 - Present

- Build and maintain scalable React applications, ensuring performance and seamless user experiences.
- Translate Figma designs into reusable, accessible React components with Tailwind CSS.
- Design and maintain RESTful APIs & backend services using Python.
- Lead code reviews, maintain 70%+ test coverage (Jest), and troubleshoot CI/CD pipelines.
- Manage versioning with BitBucket, CI/CD with Jenkins, and code efficiency/testing coverage for smooth deployments.

Key Projects:
Earnings Report Converter – Automate PDF-to-XLSX conversion for financial reporting
Workstation App – Centralize business rules and forecasts using AWS-hosted backend and MySQL.

Technologies: React, Python, AWS, MySQL, Figma, Jest, Tailwind CSS, BitBucket, Jenkins.

INTERACTIVE DEVELOPER
POST STUDIOS 2018 - 2021

- Designed cross-device ad campaigns with refined UX/UI and branding alignment.
- Executed visual design from concept through delivery using Figma and Adobe CC.
- Led creative workflows and optimized turnaround times through efficient design systems.

Key Achievements:
Produced web and mobile campaigns using Javascript, HTML5 & CSS.
Streamlined creative workflows, improving turnaround times without compromising quality.

Skills: Web Development, Adobe Creative Suite, Typography, Layout Design, UX/UI Principles, Collaborative Teamwork.

CREATIVE DESIGNER
NEXXEN (FORMERLY TREMOR VIDEO) 2013 - 2018

- Built high-performance, interactive ad units with JavaScript, HTML5, CSS3.
- Integrated advanced animations (WebGL, Canvas API, GSAP) and analytics for A/B testing.
- Reduced ad load times by 40% and created reusable components to improve dev efficiency.

Key Achievements:
Implemented adaptive strategies that increased user engagement and brand visibility.
Strengthened cross-departmental collaboration, ensuring seamless integration of creative and strategic goals.

Skills: Web Development, Adobe Creative Suite, Typography, Layout Design, UX/UI Principles, Collaborative Teamwork.

EDUCATION

SOFTWARE ENGINEERING
BLOOM INSTITUTE OF TECHNOLOGY
Modern web development with React, Node.js, Python, Knex, PostgreSQL

A.S., DIGITAL MEDIA COMMUNICATIONS & DESIGN
KATHARINE GIBBS
Design-focused development; top 10% of class

SKILLS & PROFICIENCIES

HTML	NODE.JS	TAILWINDCSS
JAVASCRIPT (ES6)	GIT	POSTGRES
REACT / REDUX	NEXT.JS	TYPESCRIPT
JEST	CIRCLECI	AWS (S3, EC2)
JULES / JENKINS	ADOBE CC	PYTHON
WEBPACK	BITBUCKET	JIRA
CONFLUENCE	STORYBOOK	FIGMA
HEADLESS CMS	REST API	HANDLEBARS
